1. Claims 1-30 remain in the application.

Examiner's Amendment

2. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

In the specification, pg. 2, line 8, the phrase "now US Pat. No. 6,682,842" has been inserted between the terms "2000," and "titled".

Reasons for Allowance

3. The following is an examiner's statement of reasons for allowance:

The prior art fails to teach or fairly suggest preparing a layered composite electrode/electrolyte structure consisting essentially of particles for forming the electrode with a layer of ionically-conductive electrolyte to form an assembly, sintering the assembly to form the porous electrode in contact with the electrolyte membrane and infiltrating with a electrocatalyst solution or dispersion. The process forms the same structure as that of allowed US Ser. No. 6,682,842.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
